and the 31st president of the United States.

The program draws on Hoover's belief in individual initiative and leadership.

In a 1948 address, he credited great human

advances to "distinctly uncommon people with vital sparks of leadership." The Uncommon Student Award program brings that belief to life, encouraging young Iowans to turn an idea for positive change into action.

Projects commonly focus on entrepreneurship, community and

humanitarian service, conservation or technology.

Students are selected based on the strength and potential of their ideas, not grades, test scores or financial need.

Each student who completes the program receives a \$1,500 cash award. Four students will

also be selected to receive an additional \$10,000 scholarship.

Presentation Day is open to the public. Community members, educators, students and families are encouraged to attend and support Iowa's next generation of uncommon thinkers.
